

July 6, 1995

Dear Iris

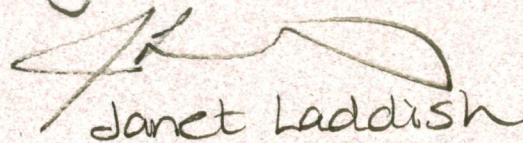

Although this is long overdue, thank you for the prompt response in sending me copies of your work on international testing. I am still using it in my work on educating colleagues about the pitfalls and cautions regarding both achievement testing and international testing. The debate in this province rages on with a lot of false information and presumption.

Dr. Alison Wolf of Britain spoke here in June to address → the national testing program embarked upon there. The program was an utter failure.

Thank you, again, for sharing your research in this country. All the very best to you in your important research.

NB:
The ATA offices also
received your information.

Most sincerely,

Janet Laddish

Thank you
