OFFICE OF THE DIRECTOR

Dr. Phua Swee Liang
Director, Research & Testing Division
Ministry of Education
Kay Siang Road, Singapore 1024
REPUBLIC OF SINGAPORE

Dear Dr. Phua:

Thank you for the very beautiful reminder of my visit in Singapore which Mdm. Low brought to Washington. You were thoughtful to remember me in that way.

My colleagues and I enjoyed meeting with Mdm. Low and Mr. Goh, who are most delightful and knowledgeable. I hope that they also found the visit useful. We certainly learned a lot about work on computer-assisted instruction in Singapore. My younger daughter, who is seventeen, was on school vacation and joined us for dinner. She enjoyed meeting Mdm. Low and Mr. Goh and asked them many questions about children (which are a great interest of hers) in Singapore.

I am told that there is a large study of computer-assisted instruction in Los Angeles which should be completed by summer. I will send you a copy of the report when it is available. I will also mail you my bilingual education article when it is published in about a month.

I hope that you will be able to visit Washington in the fall.

Kindest regards.

Sincerely,

Iris C. Rotberg
Assistant Director
